

The **Local School Construction Enforcement List** is a listing of those local code enforcement agencies, in conjunction with the local school board, that have received approval to locally enforce school construction within a particular school and/or school district. The list shows the local unit of government, the county it is located in, the school and/or school district it has local school construction enforcement responsibility for, and the effective date. Each approval is effective for a 1-year period from the date of approval.

On December 23, 2002, 2002 PA 628 was signed into law, which requires that all school construction projects, including outbuildings such as storage buildings, bus garages, athletic facilities, etc., be in compliance with the Stille-DeRossett-Hale Single State Construction Code Act (1972 PA 230) and the Fire Prevention Code (1941 PA 207).

School projects which are being constructed, remodeled, or reconstructed are subject to inspections and plan reviews in accordance with the Michigan Building, Electrical, Mechanical, and Plumbing Codes to the authority having jurisdiction, as well as to the reviews performed by the Office of Fire Safety.
